

Scoring Parameters

Assessment in the English Debate Competition (EDC) UNAS FEST 2025 consists of 2 types of assessment and several systems, as follows:

- A. Verbal Adjudication : Verbal explanation from the judge after the debate concludes. It includes the evaluation and ranking of the debate results, the reasoning behind the assessment and ranking of each team, as well as the strengths and weaknesses of each team's arguments.
- B. Silent Round : A debate round without immediate result announcement and without verbal adjudication after the debate concludes.
- C. Reset Point : A system in which cumulative points from the preliminary rounds are not carried over to the next stage (final round). After a reset, all teams advancing to the final round start again from zero, and only the results from this final round determine the winner.

Scoring Parameter 1

Scoring parameters are the scores obtained by each individual based on the arguments presented.

ASSESSMENT PARAMETERS WITH APPROPRIATENESS TO THE THEME, EVIDENCE BASED AND INTEREST (NOVELTY)		
NO	SCORE	DESCRIPTION
1	50-55	• The argument is not in line with the focus of the theme. • The data or evidence used is not relevant or limited. • The arguments outlined have not shown novelty or relevance to the dynamics of current developments.
2	56-60	• The ideas raised support the theme, but some of the arguments are less comprehensible. • The evidence presented does not strongly support the argument.

3	61-65	• The argument begins to be organized coherently and remains based on the main theme, equipped with relevant and supporting evidence. • The evidence is quite convincing and relevant, although there are still some shortcomings in supporting the argumentation in accordance with the theme.
4	66-70	• Arguments are consistently focused and relevant to the theme. • The evidence is supportive, although still at a basic level, and there is an attempt to present a fresher and more innovative argument.
5	71-75	• The delivery remains systematic and thematically sound. • There is considerable evidence, with the emergence of newer and more progressive approaches.
6	76-80	• Arguments are beginning to be sharp and in-depth in relation to the theme. • There is strong, logical evidence, and is able to explain the topic in general well. • Conveys ideas that are beginning to be convincing.
7	81-85	• Understanding and delivery related to the theme is good in accordance with the theme. • Evidence is supported by logical reasoning and creative thinking. • Delivering innovative new ideas with an approach that is quite impressive.
8	86-90	• The argumentation is sharp, reflecting a deep understanding of the theme. • Provides and presents strong and relevant evidence in a broad and detailed manner. • The argument is presented in a creative way and reflects a rational train of thought.
9	91-95	• Argumentation is deep, systematic and rich in viewpoints. • Presents very strong and in-depth evidence that strongly supports the argument. • There is a clever, innovative idea with a distinctive approach.

10	96-100	• Presents arguments and ideas that reflect originality and innovative perspectives, and is able to develop them logically and progressively with consistency throughout the debate. • Has arguments that are reinforced with concrete, relevant, actual and accurate evidence, and is able to respond to POIs very well. • Use sentences that show confidence and credibility with a convincing speaking style, full of emotional control and able to adjust intonation, body language, and diction according to the debate theme.
